EXPERIENCE

Frontend Engineer

RealFevr

📅 04/2022 - Ongoing   📍 Lisbon

- Developing and maintaining multiple client-facing websites and applications in the Realfevr Web3 ecosystem with a modular, test-oriented and reusable approach using Next.js, TypeScript and SASS.
- Designed and implemented various features, including form validations with Formik, infinite scrolling in Nextjs, and data visualization with Chart.js.
- Writing unit tests, and E2E tests with cypress contributing to observability and generally maintaining the quality standards that RealFevr is known for.

Frontend Engineer

SimpooBusiness

📅 04/2021 - 03/2022   📍 Abuja

- Lead the client-side development and maintenance of a commerce management platform using React, Redux and AntDesign
- Created and maintained continuous integration and deployment pipelines using Jenkins and Docker, resulting in a 50% reduction in deployment time
- Conducted code reviews and suggested improvements where needed which reduce bugs and crashes during deployment to production

Frontend Engineer

Digital Nest

📅 09/2020 - 03/2021   📍 Abuja

- Responsible for core design and development tasks of migrating the Journal Africa news blog from a WordPress website to a React application through writing clean and reusable code. Improved overall load time by 90%
- Spearheaded the client-side development of news blog Journal Africa. Implementing CRUD functionalities using Tailwind, ReactJs, Redux for state management while utilizing Git as a version control tool
- Set up the payment gateway and payment management system of the Journal Africa platform which improved payment management by 90% utilizing the Flutterwave payment api

Junior Software Engineer (intern)

ZuriChat

📅 01/2020 - 08/2020   📍 Lagos

- Improved the performance and maintainability of the application by implementing a micro frontend architecture
- Upgraded the stability of real-time communication of the ZuriChat application by 95% using Centrifugo
- Developed some of the APIs we needed with Nodejs and Expressjs following the RESTful API Infrastructure.

EDUCATION

Mechanical Engineering

Federal University of Technology Owerri, Nigeria

📅 10/2020

SKILLS

TypeScript	React.js	JavaScript

SASS   Tailwind   Redux

GraphQL   NodeJs   MongoDB

Jest   Cypress   NextJs   Docker

CSS Animations   HTML5   Git

AntDesign   Apollo Client   AWS

Jenkins   Figma   Storybook

Responsive Web Design   Chart.js

Expressjs   MySQL   Jira

Team Player   Communication

Critical Thinking
